## La Honda Needs New School... So It Goes After One

La Honda has a need for additional school facilities and the community has arisen to the occasion.

It has been estimated it will be at least 18 months before a new school building can be constructed at La Honda, and in the meantime space has to be provided to care for the increased enrollment.

La Honda has a one-room school building constructed in 1875 intended for about 14 children. The original steeple still stands on it. An addition to the building was constructed two years ago. This year a nearby 12 by 20-foot cabin owned by Charles A. Park, president of the La Honda Canyon Improvement Assn., is being used as a school room.

However, this space does not adequately care for the 91 students in the grammar school. A committee from the La Honda Canyon Improvement Assn. headed by Jay Rassmusen and assisted by Ray Getty set out to raise \$1000 to provide for temporary facilities. The money was raised.

A quonset hut, 20 by 50 feet, was purchased from government surplus for \$250. Fred

Archer sent a truck to Morro Bay, 15 miles north of San Luis Obispo, to pick up the former army barracks over the weekend. He donated his firm's services for the 225-mile trip each way.

The building is to be erected on the present school site during this week. It has floors, two

toilets, 150-gallon hot water heater, windows, etc., making it suitable for immediate school use.

Miss Pansy Jewett Abbott, county superintendent of schools, said the school district cannot own buildings unless they meet state standards. They can rent buildings, however.

She said the district attorney's office is working out legal steps to allow use of the quonset hut. Park said the building also would be used for public meetings, so long as the meetings do not interfere with school operations.

Contributions for the project came in from property owners, clubs and private enterprises throughout the Bay Area, Park said.

Jones, a restaurant worker, and his companion, Roy H. McDaniel, were arrested last February after McDaniel had kidnapped a South San Francisco policeman.

McDaniel had previously pleaded guilty in Judge A. R. Cotton's court to charges of kidnapping the policeman. He also admitted the robbery of Walter Upson, Brisbane service station attendant, on Feb. 19.

It will cost approximately \$1000, including the amount paid for the quonset hut, to get the building in shape for use, according to Park.

Ronnie Megordin, construction engineer, is supervising the erection of the building.

There are three teachers at the school. Mrs. Clara Ashford is the principal.

A \$26,000 bond issue—the maximum for the district—has been passed for a new school building. Miss Abbott said, but about four times that amount of money is needed. The district hopes to get the remainder of the fund if the state passes legislation providing funds for districts in distress.

Park said the acquisition of the school building is the latest accomplishment of the improvement association since it was formed in July, 1948. Through the promotion of the organization the area has obtained more than a quarter of a million dollars worth of improvements.

Four miles of roads are to be improved, one mile of which is being done now. A county maintenance yard also has been set up at La Honda.

Witte was among the 109 employees receiving pins during April.

## Board Orders Ordinance To Regulate Gas Stations

The San Mateo County Board of Supervisors late Monday instructed the district attorney to draw up an ordinance regulating all gasoline filling stations in the county's unincorporated area.

The board reached its decision after it heard representatives of the Northern California Service Station Operators Assn. charge that self-service stations constituted a fire hazard.

Paul McCarthy, attorney for the group, said that no ban was being asked on self-service stations. All that was sought, he declared, was to require that the gasoline hose and nozzle be handled by station employees.

If customers want to perform the other services—such as cleaning windshields, checking tires, oil, or even greasing the cars—no objection would be forthcoming from the operators' association, McCarthy declared.

The supervisors declared, however, that they would not vote to regulate one type of filling station without asking the same safety factors of all.

No representative of the self-service station operators appeared at the meeting, which was called for the specific purpose of considering the request of the service station operators.

County Clerk William H. Augustus said that Harrison Call, who has represented the self-service station operators before various city councils, was notified of the meeting.

McCarthy submitted to the board a sample ordinance, one adopted in Alameda County last June.

The ordinance does not mention specifically gasoline stations but prohibits "the dispensing of inflammable liquids to the public by unattended dispensing devices."

"Inflammable liquids" are described in the ordinance as all liquids having a flash point below 110 degrees Fahrenheit. The ordinance makes violation a misdemeanor, with a maximum penalty of six months in jail and \$500 fine.

Appearing with McCarthy in support of the ordinance were Stanley A. Machado of San Mateo, secretary of the operators' association's county chapter, and Glenn T. McCaffrey, Burlingame.

McCarthy told the supervisors that the self-service stations usually constitute a smaller business investment than the other type of stations, and pay less taxes.

## P.A. Couple Charges Breach In \$679,080 Damage Action

The Electronics Research Associates of San Mateo Tuesday filed suit in superior court here for a total of \$679,080 against the Philco Corp.

Mr. and Mrs. Michael R. Klein of Palo Alto, partners in the electronics firm, charged that the Philco Corp. had violated an oral agreement giving them exclusive distributorship of Philco products on the West Coast.

The suit was filed in a cross complaint arising out of another suit filed against the electronics firm by Philco. Philco asked the court for judgment of \$8904 for merchandise purchased by the electronics associates.

The Kleins charged that after entering into the oral agreement on April 18, 1948, they contracted with other firms to sell \$418,469 worth of two-way radio equipment.

Furthermore, they charged that cancellation has killed off their \$500,000 business. They are asking for an additional \$74,463 they claim they spent to expand the distributorship to Los Angeles and Portland.

In another cause of action the Kleins are asking for treble damages totaling \$313,852, charging that the Philco Corp. and an unnamed corporation "maliciously" diverted profits of the contract. The complaint in behalf of the Kleins was filed by Atty. Anthony Gaudio of the South San Francisco law firm of Dolwig & Gaudio.

On Jan. 28, the Kleins claimed, Philco notified them it was cancelling the agency. The cancellation, according to the Kleins, deprived them of \$104,617 in profits.

Furthermore, they charged that cancellation has killed off their \$500,000 business. They are asking for an additional \$74,463 they claim they spent to expand the distributorship to Los Angeles and Portland.

## Plumber Admits Theft Charge

Richard T. Bojo, 23, Redwood City plumber who lives at 428 Pine St., Tuesday had pleaded guilty to a charge of petty theft when he appeared before Superior Court Judge A. R. Cotton.

Bojo was originally charged with burglary after Redwood City Police Chief C. L. Collins said that Bojo had left fingerprints on a bottle at the home of Richard Mellen, 512 Alorton St., last October.

Taken from the house was a gold, diamond-studded ring. The charge was later reduced to petty theft.

Bojo today pleaded guilty to the charge and asked for probation and will appear May 2 for sentence.

## Gets 60 Days in Jail For Carrying Dagger

Frank M. Martin, 26-year-old Negro car washer who lives at the Five Points Hotel Monday pleaded to possession of a deadly weapon when he appeared before Judge A. R. Cotton's superior court.

Judge Cotton denied Martin probation and sentenced him to 60 days in the county jail.

## Difference

When you are knighted by the King of England, you are given the title of "Sir" for your lifetime only, but when you are made a baronet, you can pass the title down to your eldest son.

# Study The Eating Value You Get In Safeway Lamb Chops

(the chops are yours free unless you find them wonderful eating!)

THEY'RE FROM TOP GRADES OF LAMB  
...selected by experts who know quality

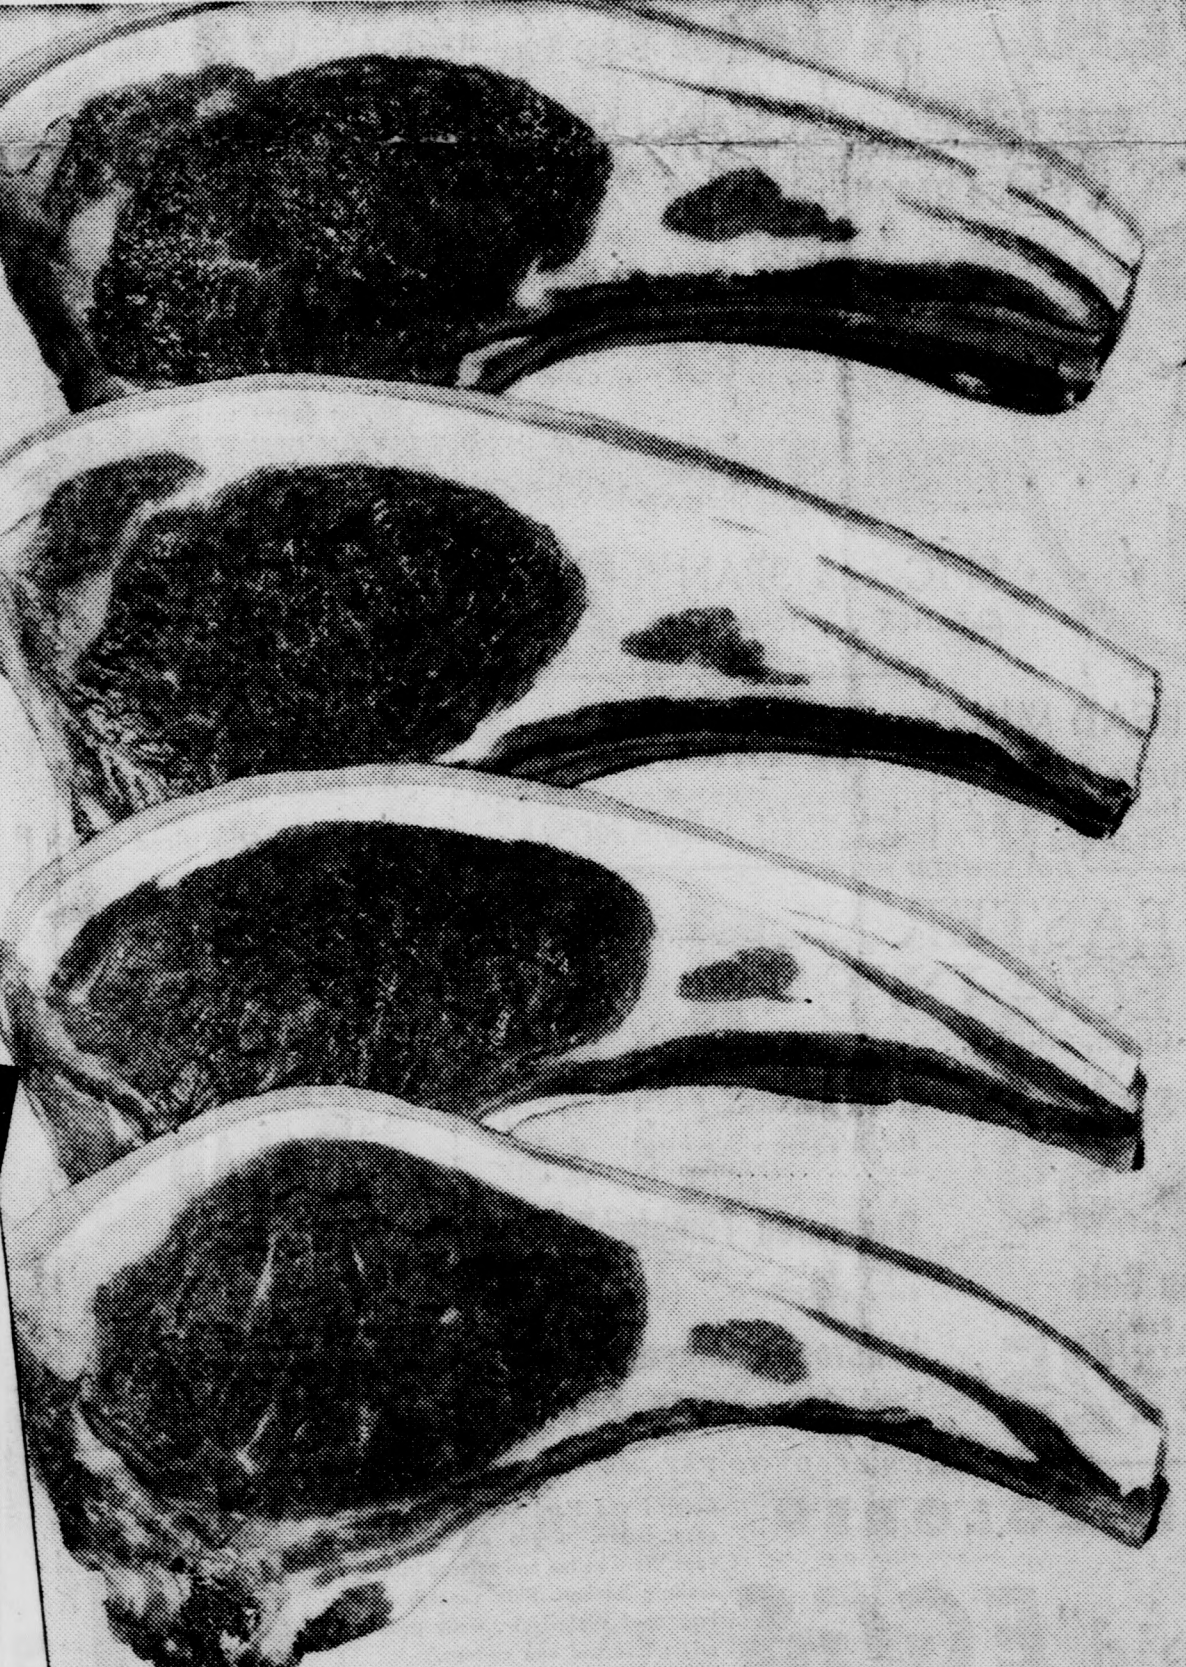

Safeway experts buy only Government graded lamb—the top U. S. Government grades. It's the finest-eating lamb offered in this area. Safeway also buys only top U. S. Government grades of beef, top grades of pork and veal

THEY'RE AGED FOR TENDERNESS  
...the way finest hotels do

In the specially-designed aging rooms (at our remarkable 2-acre meat plant) we age Safeway meat for the full time required to develop its peak natural tenderness, juiciness and fine flavor. Just the way famous hotel chefs do

THEY'RE TRIMMED BEFORE WEIGHING  
...you don't pay for excess bone or fat

These Safeway rib lamb chops show you why it's "money in your pocket" to check trimming as well as price when buying meat. Safeway cuts off long "tail" and tip end of chine bone from each chop before weighing. It gives you better-eating chops, less waste

The guarantee printed below holds good on ALL meat purchases at Safeway markets

TAKE HOME some Safeway rib lamb chops (or any cut or kind of Safeway meat)...Cook and serve the way you prefer

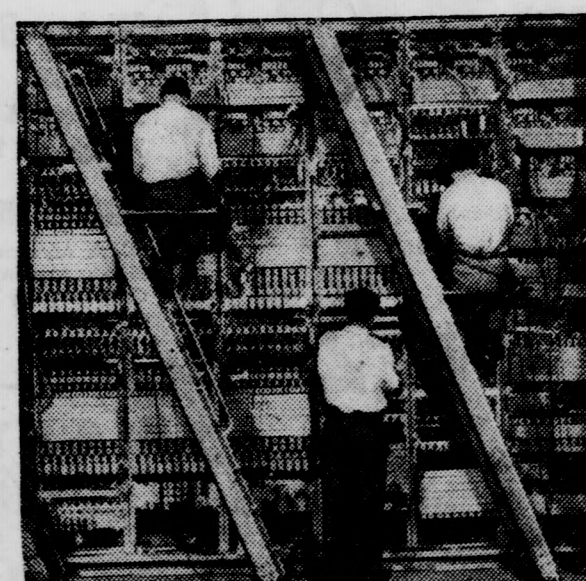

EAT EVERY BIT OF THE MEAT...judge the tenderness, juiciness, flavor

IF YOU DON'T LIKE THE MEAT—for any reason whatsoever—your own Safeway market man will give all your money back, without return of the meat.

We take the risk on **SAFEGWAY GUARANTEED MEATS**

## ONE OF TODAY'S BIGGEST BARGAINS

How your telephone gives you more real value today in spite of sharply-increased costs of furnishing service

2. If you could see how much expensive equipment goes to work for you each time you make a call, you might wonder how it can be done...for just a few dollars a month. Lines, cables, poles, buildings, intricate equipment—all must be ready...along with the people who man them...to serve you when you pick up your telephone.

4. There is no way to determine the full value of a telephone, of course. A call may be routine—or it may save a life, make a new friend, close a business deal. Yet a few pennies still buy a telephone call. In these days of high prices, it's good to know that your telephone keeps giving you real value—it's one of today's biggest bargains.

The Pacific Telephone and Telegraph Company

Your telephone gives you more service today than ever before

1. For a quick call to the druggist, for business, for every purpose, your telephone is a more valuable servant today than ever. It can run more errands, do more jobs. In the past ten years, telephones on the Coast have doubled. We're continuing to add them rapidly. Result: You can get in touch with more people. More people can get in touch with you.

3. More "Voices with a Smile" are serving the West today...our payroll is the biggest ever. Postwar costs have shot up all along the line on the things we do to provide service. The facilities to serve new telephones today cost about twice as much as prewar. Yet telephone rates are up much less than almost anything we buy or you buy.

## GARDEN: Woman's Plight Could Have Repeated Here

By ROLLY LANGLEY

Mrs. Cynny Rixford happens to live in Sacramento, but what has happened to her could happen to anyone, any place. She planted seeds of tomato, lettuce, chard and "Australian" spinach in boxes in the house for transplanting early. She fed them a nutrient in solution once a week.

"They are so beautiful above ground," she writes, "but the roots are just threads. Just one straight little thread—no side roots at all. I thought I would transplant my tomatoes into a larger flat, so I could put them outside to harden them and only bring them in in case of frost. The soil I used was rich—cow manure, sand and loam. (I am writing this at 6 a.m.)."

Let's put it this way. Roots are lazy. They won't travel unless they are forced to. If surrounded by a rich soil, and then given a nutrient solution weekly in addition, the roots assume things will always be so lush, and just don't develop. Remember my telling you about growing snap bean vines 18 feet long, with roots less than six inches long? How come? Strong solution.

M. E. Rue of Oakland ruefully writes: "How about suggesting somebody invent a sponge rubber knee pad that fastens on the leg and stays put? Invent and market it P.D.Q. before all your gardeners break out in a rash of housemaid's knee. One answer of course is a sponge rubber kneeling pad. Elementary. When I remember the darn thing it's eight feet behind me. What I want is a gismo that fastens on, preferably under the garden slacks. This idea is yours, gratis, and you're welcome."

With all the weeds coming so fast, it's no wonder folks think about knee pads. How about tying two strings on the sponge rubber pad so it hangs down from the waist, just over the knees. Then when you get up it should look like an apron that has slipped a gear, but at least when you kneel, it will be there. Aren't there clips with springs and jaws, which will catch and hold on until you press the jaws apart? Seems like everything has been invented that's necessary. All we have to do is assemble.

What to plant now. Flower seed: Petunia, zinnia, aster, phlox Drummondii, lobelia, clarkia. Transplant: celery, delphinium, gerbers, snapdragon, begonia, citrus. Vegetables: squash, cucumber, snap beans, spinach, peas, root vegetables, lettuce, chard, parsley, sweet basil, summer savory.

You'll note that for the first time this season, it's suggested that you plant pole snap beans.

### PUBLIC NOTICE

NOTICE OF ELECTION FOR MEMBERS OF THE GOVERNING BOARD OF THE SEQUOIA UNION HIGH SCHOOL DISTRICT

Notice is hereby given to the Electors of the Sequoia Union High School District of San Mateo County, California, that the Annual Election for members of the Board of Trustees of the school district will be held on the Third Friday of May, viz. May 20, 1949. It will be necessary to elect two members.

The polling places for said election of the Sequoia Union High School District will be in the following schools: Belmont Elementary School District, Belmont Elementary School Precinct, Greensburg Elementary School District, Woodside Elementary School District, Las Lomas Elementary School District, Las Lomas Elementary School Precinct, Menlo Park Elementary School District, Central Elementary School Precinct, Portola Elementary School District, Portola Elementary School Precinct, Ravenswood Elementary School District, Ravenswood Elementary School Precinct, Willow Elementary School Precinct, Redwood City Elementary School District, McKinley Elementary School Precinct, John G. Gil Elementary School Precinct, Lincoln Elementary School Precinct, Monroe Elementary School Precinct, Hoover Elementary School Precinct, Washington Elementary School Precinct, Garfield Elementary School Precinct, Taft Elementary School Precinct, San Carlos Elementary School District, White Oaks Elementary School Precinct, Central Elementary School Precinct, Arundel Elementary School Precinct, Electors will vote in the elementary school district precinct in which they live.

CLIFTON H. WOODHAMS, Clerk of Board of Trustees, Sequoia Union High School District, April 8, 1949, April 14, 21, 28, 1949.

## 95-Year-Old Man Wants to go Home

**BERKELEY (AP)**—John W. Hudson of Berkeley was knocked down by a bus yesterday and suffered a cut scalp and leg bruises.

Police wanted to take him to a hospital.

"I'm all right," he said. "I want to go home, not to a hospital. Leave me alone."

He was taken to a hospital anyway. There, he gave his name and address—but no phone number. "Nobody ever calls me up, so why give my number?" he asked.

"I want to go home. All I have is a little cut," he said. "Doctors found the scalp wound. 'Just clean it off,' he ordered. 'Don't stitch it up.'"

He was held down and the wound stitched.

He was also held for X-rays—and didn't get to go home.

Hudson is 95 years old.

Q—Who translated the Bible for the American Indians?

A—John Eliot of Massachusetts established a church and preached to the Indians in their native language. He translated the Bible for them and converted thousands to Christianity.

## Accidents Show Decline Here

The number of Redwood City accidents decreased during the first quarter of 1949 as compared with the first quarter of 1948, but the number of injuries remained the same. In addition, there was one fatal accident during the first quarter of 1949 as compared with none in the first quarter of 1948.

These figures were contained in a police department report prepared by Secy. Dolores M. Everson.

compared with 175 in 1948. In the first quarters of both years, 65 persons were injured.

The report showed that 24 per cent of the injury accidents this year happened on El Camino Real and 22 per cent on Bayshore Hwy.

The old complaint about Sunday drivers didn't hold up in the report which showed that the largest number of March accidents happened on Thursday, the largest number of February accidents happened on Friday and the largest number of January accidents happened on Saturday. The high number was 15 for each month.

On Sundays, four accidents happened in March, and eight each in January and February. The time of day when accidents most occurred in both February and March was 5 p.m. Eight occurred at 5 p.m. in February and six at 5 p.m. in March. Best time for accidents in January when eight were reported was 7 p.m.

Persons between 16 and 30 years old were drivers of most of the cars involved. In January those between 26 and 30 were drivers in the most number of accidents, 21. In February, those between 16 and 20 were involved in the largest number, 19. In March those between 21 and 25 were involved in the largest number, 21.

## Report Use of Drug to Slow Cancer Progress

**STANFORD UNIVERSITY**—Further evidence was offered here today that it is possible to halt the progress of cancer—if only temporarily—by means of a drug.

The evidence was contained in a report issued by the California Division of the American Cancer Society on research done by Dr. Harold K. Faber, professor of pediatrics at the Stanford University Medical School.

Working with a grant of \$11,050 from the Irene B. Dornham American Cancer Society Fund, the physician reported that aminopterin had temporarily slowed down the progress of acute leukemia in 15 out of 24 children treated at the medical school.

The remissions—or temporary disappearance—of the symptoms of acute leukemia, a form of malignant cancer which is ordinarily rapid in its deadly course—have lasted for from 63 to 215 days in the child patients, who ranged in age from 7 months to 10 years.

But the encouraging results, which returned the young patients to apparently normal health if only for a few months, did indicate that the course of cancer can be halted transiently by chemical means, and this opens the path for hope at least that further research may lead to more permanent results.

The new chemical weapon being tested by the Stanford scientist is a yellowish powder, which is suspended in salt solution and injected into the patient's muscle.

The drug works because it is a chemical antagonist of folic acid, which scientists have known for some time was the medical villain which speeded up the acute leukemia process.

### Here's How Our "Card Plan" Works

We'll give you a card, and punch on it the amount of each purchase you make in our stores—except Household Institute merchandise. A total of \$5.00 in "punches," on one or more cards, entitles you to buy any one set or unit of beautiful Household Institute Silverplate at our money-saving-card price.

### Here's How to Build a Complete Service

Each unit of Household Institute Silverplate contains pieces for four individual place-settings. You can complete your service for eight, twelve—or more—persons by buying two, three—or more—of each unit. Only \$5.00 in "punches" brings you each unit at our card price.
